

Boost Impact with the Power of Advanced Arlon Media.

Maximize graphic quality across all print applications with premium Cast, Polymeric, and Monomeric vinyl media—engineered for unmatched durability, vibrant ink receptivity, and effortless application.

ARLON DIGITAL VINYL PORTFOLIO

Cast, Polymeric & Monomeric Print Media

High-performance self-adhesive vinyl engineered for precision printing, long-term durability, and seamless lamination.

WHY CHOOSE ARLON MEDIA

Premium Cast Performance (6100XLP)

2-mil cast film featuring LX X-Scape technology for bubble-free, paint-like wrap installations on complex rivets & curves.

Versatile Polymeric Power (510 Series)

3.2-mil intermediate film with low-profile air egress and removable grey adhesive, ideal for high-impact 3-year outdoor graphics.

Cost-Effective Monomeric Solutions (410 Series)

3.2-mil economical promotional film offering a bright white finish, permanent clear adhesive, and a flat lay-liner for fast contour cutting.
